DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: Carter et al (6028690) in col.8, line 47 discuss the prior art of the border pixels needing only one electrode and can be hardwired to the proper bias voltage (to the off state), eliminating the need for a memory cell which frees up space on the substrate. The instant claimed invention teaches away from this concept, and provides a system to fix border pixels "stuck" in the one state to be changed to another state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Hanig whose telephone number is 571-272-2329. The examiner can normally be reached on M-F: 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on 571-272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
